GERMAIN SEED CO.

326-330 S. MAIN ST.

LOS ANGELES, CALIFORNIA

Notice to Correspondents

We decline sending perishable goods, Bulbs or Plants, C. O. D., unless a remittance of 50 per cent. accompanies the order to insure us against loss. Orders from unknown correspondents must be accompanied with cash or satisfactory reference. All bulbs forwarded at purchaser's expense. If to be sent by mail an extra amount must be sent to cover postage which varies according to the variety of bulbs; where no amount is quoted for postage, those varieties will be sent free by mail.

Germain's Special Collection of Bulbs

These are made up of the same choice bulbs as offered in this catalogue, but as we offer them at greatly reduced prices, we cannot allow any alterations.

Bulbs for Fall and Spring Planting

Hyacinths

For certainty and regularity of bloom, Hyacinths are unsurpassed by any other flowers. The simplicity of their culture and the invariable return for the little labor required to grow them, make them general favorites. Plant in open ground, in good rich soil, from November to January, covering to the depth of from 3 to 4 inches. For pot culture plant in 5-inch pots, leaving one-third of the bulb exposed. Keep in a cool dark place 5 or 6 weeks till the roots are fully developed, then gradually inure to the light. In glasses, fill the glass with water, so as to nearly touch the base of the bulb. A piece of charcoal, the size of a walnut, put into the water, will keep it pure and obviate frequent changing. In changing the water, draw the roots lightly through the hand, to clean them from any scum, which might, if left, induce rot.

- Byblooms**, superfine mixed, white ground, blotched and feathered, with crimson, pink, violet and maroon. Each 5c; per doz. 30c; per 100 \$2.00.
- Parrot or Dragon**, large flowers of brilliant and varied colors, petals curiously cut or fringed, very showy and attractive for beds. Each 5c; per doz. 30c; per 100 \$2.00.

Narcissus

The Narcissus is one of the most useful of the early blooming bulbs, being hardy and of easy culture. Plant in any good garden soil, any time from November to the end of January, covering to a depth of about 5 inches. The Polyanthus varieties may also be grown in pots or water. The varieties of Narcissus are deserving of far more attention than they have hitherto received in this section; their variety of color—varying from pure white to bright orange—delicious fragrance, easy cultured and free blooming qualities, render them desirable for garden and for cutting.

CHINESE SACRED LILY

Polyanthus Narcissus

Postage 20c per doz. extra

Double Yellow	5	30	2 25
Campanelle Yellow		25	1 50

Crocus

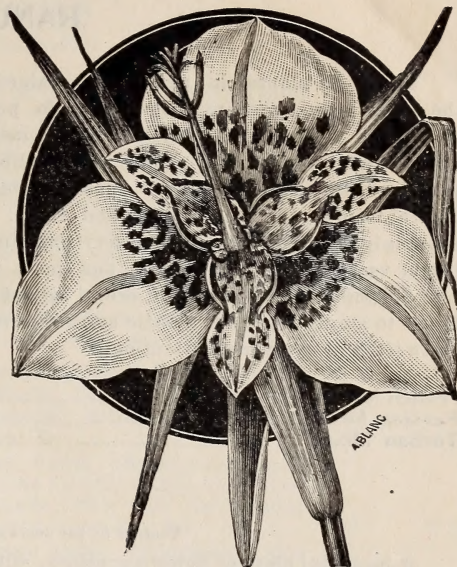

The Crocus is among our earliest spring flowering bulbs, and makes a splendid show when grown in masses. They may be planted any time in the fall, in good garden soil, about 3 inches deep and 3 or 4 inches apart; they may also be grown in pots or glasses, sometimes grown in ornamental pots shaped like a hedgehog, when the bulbs are inserted in small holes about 1 inch apart. When in bloom, they are very effective for house decoration.

	Per Doz.	Per 100
Cloth of Gold , yellow and brown	15	\$ 75

Rosette , new, delicate rose, extra large	5	40	2 50
Choice Mixed , 2 for 5		25	1 50

RANUNCULUS

Should be planted in rich, well drained sandy soil. If the soil is heavy, prepare it by mixing in plenty of sand and well rotted manure to the depth of 6 or 7 inches, or by making a small trench 4 or 5 inches deep, filling this up with sand in which plant the bulbs about 3 inches deep, being careful to press the sand firm around them. Ranunculus are strikingly beautiful flowers, of every imaginable shade from bright vermilion to pink, yellow and pure white. They are free bloomers, very double and useful for cut flowers. Will be found to amply repay for a little extra care in cultivation, and are worthy of everyone's attention.

French Mixed, (see cut)	15	\$ 75
Persian Mixed	15	75
Turban Mixed.....	15	1 00

FRENCH RANUNCULUS

IRIS

Postage 5c per doz. extra; Kaempferi 10c each extra

A beautiful class of flowering plants, with flowers of sweet perfumes and quaint forms, almost equaling orchids in beauty, richness and variety of color; very useful for bouquets and vases, lasting a long time when cut. Plant in light, rich soil, about three inches deep. Often planted in clumps when they are particularly effective; for this purpose set the bulbs about 3 inches apart each way; every three or four years they should be dug up and reset.

	Each	Per Doz.
Angelica , (English Iris) fine mixed, an old fashioned flower; large, handsome flowers, mostly of rich purple, blue or lilac shades, very hardy, grows 18 to 20 inches high	5	\$ 35
Germanica , (German Iris) (see cut) fine mixed, though called German Iris, this is truly the <i>Fleur de Lis</i> , the national flower of France	5	50

IRIS GERMANICA

Hispanica , (Spanish Iris) blue, yellow, white and mixed; dwarf, useful for pot culture, and the finest kind for forcing; flowers of great beauty, of various shades, and will last from one to two weeks when cut; a great favorite among florists. Per 100 \$1.00; 2 for 5c		20
Kaempferi , (Japan Iris) very large flowers of the rarest and richest shades seldom seen except in the finest orchids. Ready for planting about January 1st. Choice named sorts mixed	25	2 50
Pavonia , (The Peacock Iris) white, blotched sky blue.....	5	50
Persica , a dwarf, orchid-like variety, early.....	10	1 00

CALOCHORTUS

"The Mariposa Lily," or "Butterfly Tulip"

These are among the most beautiful of our native California plants. The flowers resemble a tulip in form, and are of the most varied and showy colors. May be planted in good soil, covering about 3 inches deep, any time from August to November, but early planting is considered best. For eastern culture, as a pot plant, they will be found especially useful.

	Each	Per Doz.
Albus , (Fairy Bell, White Globe Tulip) flowers about an inch in diameter, pearly, white with silky hairs, hanging like bells 10 to 20 on a plant.....	5	40
Benthami , flowers bright yellow; dainty cup lined with silky hairs.....	5	40
Catalinae , flowers large and handsome, white to lilac or deep lilac with a large black spot at the base of each petal; a lovely species, blooming fully a month before other Mariposas.....	10	1 00
Clavatus , flowers shaped like a broad-based bowl sometimes 5 or 6 inches across; deep, rich yellow, the lower half covered thickly with stiff yellow hairs; tipped with round translucent knobs like tiny icicles. The largest flowered and stoutest stemmed of all the Mariposas.....	15	1 50
Nitidus , flowers large and white with an indigo blotch in the center of each petal. Covered inside with silky hairs.....	10	1 00
Plummerae , (<i>C. Weddii Purpurascens</i>) rich lavender purple, lined with long, yellow, silky hairs, large, extra choice.....	5	50
Splendens , pale lilac flowers, 2 to 3 inches across, lower part of the petals covered with long cobwebby hairs, a tall and stately species.....	5	50
Venustus Citrinus , deep lemon yellow, with black eye; the plants grow from 1 to 3 feet high and produce flowers when well grown 3 to 4 in. across.....	5	40
Venustus El Dorado , unsurpassed for beauty and variety of color, varying from white, pink salmon, rich red, lilac to dark, velvety purple. All are marked with a showy yellow and brown eye, and beautifully lined and dotted. To some is added a large gold blotch at the apex of each petal, and all have showy red centers.....	5	50

CALOCHORTUS—Continued

	Each	Per Doz.
Venustus Oculatus , white, cream, lilac or purple, habit similar to the above variety.....	5	40
Venustus Pictus , a creamy white, brilliantly marked, often with a gold blotch.....	5	50
Venustus Purpurascens , purplish lilac outside and top of petals, creamy white half way, purple in center, beautiful eye at center of each petal. Flowers full 3 inches across.....	5	50
Venustus Roseus , a creamy white or lilac with an eye midway and a rose colored blotch at apex.....	5	50

CALOCHORTUS

Vesta, white, suffused with lilac or rose purple, red center. Immense flowers measuring from 3 to 5 inches across. The best of all the Calochortus.....

10 1 00

Mixed Calochortus, contains many of the best varieties.....

5 35

OXALIS

Graceful little plants, with dainty foliage and flowers of various colors, suitable for hanging baskets, pots, window boxes, small beds, etc. For pot culture, plant from 6 to 8 in a 5 or 6-inch pot and cover about 1 inch deep. For beds, plant 4 or 5 inches apart and 1 to 2 inches deep in rich friable soil.

Per Doz. Per 100

Grand Duchesse, White, large pure white, on single stems from 5 to 8 inches long, bright green foliage, extra fine.....

20 1 25

Grand Duchesse, Pink, bright pink on single stems; compact, sturdy grower with dark green foliage.....

20 1 25

Grand Duchesse, Lavender, pinkish lavender, changing to old rose, on single stems 5 to 8 inches long; dark green foliage.....

20 1 25

Bermuda Buttercup, flowers are very large, bright buttercup yellow, produced in great profusion on long stems, several on a stem. A very luxuriant grower; one of the most desirable for pots or hanging baskets; one bulb of this variety is sufficient for a 5 or 6 inch pot, and if properly treated may be had in bloom within 6 or 7 weeks from time of planting. Well grown plants have produced over 1000 blossoms in one season, and as many as 70 flower stems at one time. 2 for 5c.....

20 1 25

Bowell, rosy crimson, large, extra fine. 2 for 5c.....

20 1 25

Choice Mixed, 2 for 5c.....

LILIES

Postage 20c to 25c per doz. extra

We cannot say too much in praise of this elegant class of plants which are becoming more popular every season. The Lily has been rightly termed the "Queen of flowers," and no flower can convey a more true idea of purity, grandeur and stately beauty. Very handsome either for garden or pot culture, deliciously fragrant and fine for cut flowers.

Culture in open ground; dig well, add some sand and well rotted manure (except for Auratum, which will not bear manure) and plant about 5 inches deep. Culture in pots: Give thorough drainage, then fill up with compost, consisting of good, rich soil, peat and river sand; place the bulb firmly on this and cover them about one inch below the surface; give no water until plants appear above ground, then water freely.

L. Harrissii ready September 1st, other varieties about the middle of December.

Auratum, "Golden Banded Lily" the finest and most magnificent of the genus.

Each Per Doz.

Flowers white, spotted crimson with a distinct golden stripe running through each petal. First size bulb.....

25 \$2 50

Freesia

This elegant little flower seems to be especially adapted to the climate of California, and is becoming more popular each season. They succeed best in light soil, and may be planted from August to November, from 2 to 3 inches deep. the flowers which appear in February and March, are white, fragrant, and very useful for cut flowers, often lasting for two weeks if cut as soon as open.

Freesia refracta alba, pure white, very handsome, possessing a peculiar grace of form and delightful fragrance, one pot of 5 or 6 bulbs being sufficient to perfume a whole house. Per doz. 15c; per 100, \$1.00. Mammoth size. 25c per doz. \$1.75 per 100.

FREESIA

Tuberose

Postage 20c per doz. extra. Supplied from January to May

"**Polyanthus Tuberosa**," one of the most beautiful summer and fall flowering bulbs in cultivation. Flowers pure white and of exquisite fragrance. Admirably adapted for cut flowers, and of easy cultivation. Plant in open ground, when the soil has become warm. May also be started indoors in pots, earlier, and afterwards planted to where they are to flower. Hardy in Southern California.

Double Pearl, far superior to the old double variety, growing only about 2 feet high, with large individual double white florets, which have longer foot stalks than the old variety, rendering them more useful for cut flower purposes. Large bulbs, each 5c; per doz. 50c; per 100, \$3.00.

Miscellaneous Bulbs

AT IT 36 YEARS. ESTABLISHED IN 1871

For the past 36 years Germain's bulbs, garden and field seeds have held first place among planters in the Southwest, which is only another way of saying that for fertility and reliability they stand supreme. You are always sure of securing quality at Germain's. But in addition to this you will also find that prices are right, quality considered. On these grounds your patronage is solicited.

Hints on the Formation of Lawns

In the first place see that the ground is well prepared; dig or plow the ground to the depth of 8 inches. Afterwards harrow or rake carefully and remove all large stones. If the soil is shallow, procure a supply of fine mold and spread over the surface to a depth of 5 inches. Soil may be enriched by bone meal or well rotted manure wherever necessary, then rake level and roll the soil well to make a solid bottom. Scatter the seed evenly over the surface at the rate of 150 pounds to the acre (for Blue Grass) or 1 pound to 16 square feet. Rake seed in and roll, water regularly and carefully, as the soil is liable to dry out in the heat of the day, and if it does while the seed is germinating, it will inevitably perish. When the grass is three inches high, it should be cut and rolled, and every week or so thereafter until the grass has become firm. Eradicate weeds wherever they appear, without disturbing the grass. Should bare spots appear, rake the surface and sow more seed. The roller should be used more frequently during the season and a dressing of stable manure or lawn fertilizer once a year is necessary to the maintenance of a good lawn.

Nothing adds quite so much beauty to the front yard as a well kept lawn, with possibly a strikingly individual palm or coniferous tree to lend variety to the scene. Remember, we are headquarters for all kinds of trees and plants for lawn decoration.

Lippia Repens. The new lawn grass, just the thing for those who are unable to get good results from Blue Grass. Produces a splendid sward and stands drought and heat extremely well. It has been known to flourish here from April to October without rain, a fact which should commend it in localities where there is a scarcity of water. Sold in flats of sod 18 inches square. Cut the sod up into small pieces an inch square and plant 1 foot apart each way. Price \$1.00 per box, 10 boxes \$8.

Kentucky Blue Grass. The seed we offer is fancy cleaned, the purest grade obtainable. Per lb. 25cts., 100-lb. price on application.

White Clover. We offer strictly first-class seed, clean and pure. Per lb. 35 cts., 5 lbs. \$1.50.

Australian, or Perennial Rye Grass. Used extensively in some localities for lawns on account of its hardiness. Per lb. 15 cts., 10 lbs. \$1.25.

Lawn Fertilizer. Our own brand. Per lb., 5 cts., 100 lbs, \$2.50.

Sweet Peas

America. White ground, striped with blood-red.

Aurora. White, striped and flaked with orange-salmon; very large.

Blanche Burpee. Pure white; large.

Blanche Ferry. Pink and white.

Countess of Cadogan. The first opened blossoms have purple standards, which turn to a clear bright blue.

Countess of Radnor, Improved (New Countess). Pure light lavender; very large.

Dorothy Eckford. The new white. One of the largest and purest whites. The best in existence.

Dorothy Tennant. Deep rosy mauve

Duchess of Sutherland. White, suffused bluish pink.

Emily Eckford. Standard light reddish mauve, wings porcelain blue.

Emily Henderson. Pure white; splendid.

Gorgeous. Bright orange-salmon, wings orange-red.

Gray Friar. Beautiful watered purple on white ground.

Hon. Mrs. E. Kenyon. A fine large clear primrose yellow

Hon. F. Bouverle. Standard coral-pink, wings flesh-pink.

Juanita. White, striped lavender and mauve.

Katherine Tracy. Brilliant pink; grand.

King Edward VII. Bright crimson; very large flowers. Best Red.

Lady Grisel Hamilton. Delicate silvery lavender.

Lottie Eckford. White, suffused and edged with lavender.

Lottie Hutchins. Penciled and clouded pink on straw-yellow.

Lovely. Shell-pink; extra large; very fine.

Maid of Honor. White and lavender, edged blue.

Miss Willmott. Bright orange-pink, veined with a deeper tint.

Modesty. Very soft and delicate pale pink.

Mont Blanc. The earliest Sweet Pea yet introduced. The flowers are large and of the purest white.

Navy Blue. Deep blue; extra fine.

Othello. Deep maroon; very large and of the finest type.

Prima Donna. Soft rose-pink; extra fine.

Ramona. White striped and splashed with delicate pink.

Royal Rose. Deep Rose, shaded light pink.

Saddle Burpee (black seeded). White, bluish tinge when young; large.

Salopian. Deep crimson-red; extra large.

Sensation. White with flesh tinge.

Stella Morse. Primrose, clouded rosy apricot.

The above varieties, separate colors, pkt. 5 cts., doz. pkts. 50 cts., oz. 10 cts., $\frac{1}{4}$ lb. 25 cts., lb. 60 cts. The whole collection of 35 varieties, 1 pkt. of each, mailed free for \$1.25.

Germán's Sunset Collection of 12 beautiful varieties of California Large Flowering Sweet Peas. 50 cts.

California Large-flowering Mixed. From 20 named varieties. Pkt. 5 cts., oz. 10 cts., $\frac{1}{4}$ lb. 20 cts., lb. 60 cts.

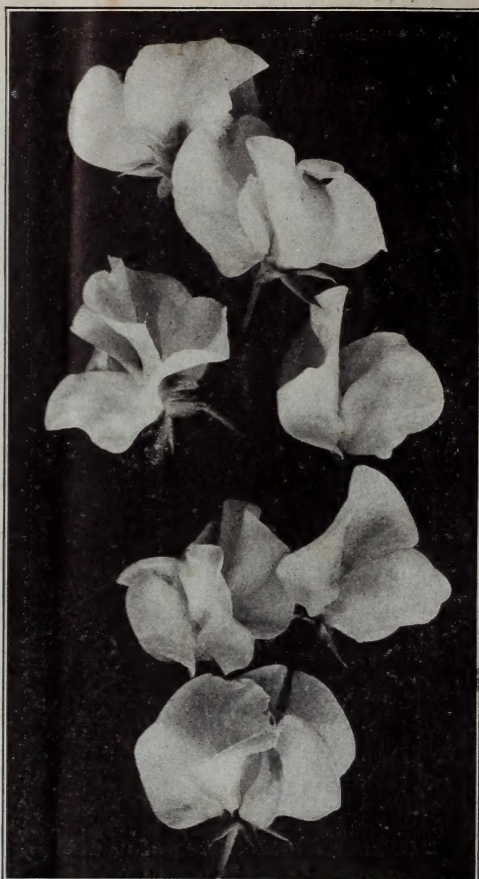

Germán's Special Light Mixture. Including only light and bright colors. Same price as above.

Eckford's Hybrids (Mixed). This mixture is made up of the best of Eckford's hybrids and necessarily many of the finest varieties of the above mixture are not included. Pkt. 5 cts., $\frac{1}{4}$ lb. 15 cts., lb. 40c.

Double Mixed. A new class of Sweet Peas. Pkt. 10 cts., oz. 15 cts., lb. \$1.

Three Choice New Varieties

Countess Spencer. New Orchid-flowering. It is the largest Sweet Pea yet introduced, and is of fine form, open and well expanded. Its round standard and very large wings are slightly ruffled on the edges. It usually comes four blossoms on the

MONT BLANC SWEET PEAS

stem, and the stems are long and stiff. The color is a bright rosy pink, a little deeper towards the edge of the petals than at the base. This variety really marks a new era in Sweet Peas, as it is of a form and size we had not attained heretofore. Pkt. 10 cts., oz. 25 cts.

Gladys Unwin. A giant open-flowered, soft rose-pink. Pkt. 10 cts., oz. 25 cts.

Helen Pierce. Beautiful new; blue mottled. Pkt. 15 cts., oz. 50 cts.

Cupid, or Dwarf Sweet Peas

The Cupid varieties are very showy and splendid for bedding. Height 6 in. Plant the seeds 6 in. apart.

Allice Eckford. Standard creamy white, wings white, flushed pink.

Beauty. Standard rose, shading to white, wings rosy carmine.

Boreatton. Rich deep maroon.

Countess of Radnor. Delicate lavender; large extra fine.

Firefly. Dazzling scarlet; free bloomer.

Pink. Standard bright rose-pink, wings white or light pink.

Primrose. Pale primrose or creamy white.

White. Pure white; very fine.

The above varieties, mixed or separate, pkt. 5 cts., oz. 15 cts. The collection of 8 varieties, 1 pkt. of each, mailed free for 35 cts.
